Dear Mr. Latson,

Our . It has been a great year for and we are happy at Spanish River.

We are writing to discuss the Florida Mandate to Include Holocaust Education each year in the student's curriculum.

We are aware that there was a speaker one night at school this year, and that there is a Holocaust studies class offered, however, these offerings are attended by the minority of students and are optional. We would like to know in what ways/classes is Holocaust education provided to all of the students?

According to our research, it is supposed to be planned into history courses annually, and to date my : said it hasn't been mentioned in AP Human Geography.

Last year at Omni there was a big problem with the principal covering up an anti-Semitic incident, which led to the discovery that he was not ensuring that Holocaust education was being incorporated into classes. There was a Holocaust survivor who came to an assembly attended by some classes, but because no prior education on the Holocaust was offered in preparation, the students did not appreciate the importance nor did they get much out of it because they were not paying attention.

As a result of the above mentioned coming to light, a group of us contacted Palm Beach County's Anti-Defamation League and the local superintendents and meetings were arranged to address the issue of the Holocaust Education Mandate being implemented at Omni and how to address anti-Semitic incidents with students and teachers. In addition, student assemblies were arranged to try to make up for some of the lost education, as well as training for staff.

Hopefully this is not an issue at Spanish River, and there is a priority placed on educating all students on the Holocaust. It is heartbreaking that in this day and age anti-Semitic incidents are heavily on the rise and more people than ever are not educated on the horrors of the Holocaust.

I am sure that you can appreciate and respect our concern. Please understand that our intention of ensuring and inquiring about how this mandate is being followed through on is because of how the ball was dropped regarding it at Omni.

We look forward to your response, and please feel free to give a call if it is easier!

Thank you!

Sincerely,

I response to your email and your concerns, you will not have those concerns at Spanish River in regards to not dealing with anti-Semitic behaviors. As far as holocaust studies and the curriculum it can be dealt with in a variety of ways. The curriculum is to be introduced but not forced upon individuals as we all have the same rights but not all the same beliefs. Each year we do a holocaust assembly and we target the 10th graders so every year that group will get a days work with the holocaust. We advertise it to the 10th grade parents as their are some who do not want their children to participate and we have to allow them the ability to decline. By doing it in that grade level, every students will get the opportunity before they graduate.

The courses are offered and as most of our courses, they are optional. The topic is covered in the various social science courses that it aligns with. AP Human Geography and any other AP course is not governed by the Florida Department of Education as far as content because they are college courses owned by College Board.

We have a variety of activities for students and parents each year during and after school to provide anyone the ability to attend. The District's Social Science and Holocaust Studies Program Planner works closely with us to provide opportunities for the Boca Raton community as we have been the school they work through because of our continued focus and work in the area. We have a close tie with Temple Beth El and use Rabbi Levin as my consultant to guide me in the area and what is acceptable and not. Again we do a very good job at providing education in the area for our students and not accepting certain behaviors or not addressing the behaviors. Thank you

Mr. Latson,

Thank you for your response.

Please clarify your statement: "The curriculum is to be introduced but not forced upon individuals as we all have the same rights but not all the same beliefs."

The Holocaust is a factual, historical event. It is not a right or a belief.

Thank you.

The clarification is that not everyone believes the Holocaust happened and you have your thoughts but we are a public school and not all of our parents have the same beliefs so they will react differently, my thoughts or beliefs have nothing to do with this because I am a public servant. I have the role to be politically neutral but support all groups in the school. I work to expose students to certain things but not all parents want their students exposed so they will not be and I can't force that issue. One must understand that in a public school setting the school can't take a position but provide information and allow parents to work with their students on what they want their children to understand.

I can't say the Holocaust is a factual, historical event because I am not in a position to do so as a school district employee. I do allow information about the Holocaust to be presented and allow students and parents to make decisions about it accordingly. I do the same with information about slavery, I don't take a position but allow

for the information to be presented and parents to be parents and educate their students accordingly.

I am not looking for a situation to divide but just to let All know I don't have a position in the topic, as an educator. My personal beliefs are separate and will always be as they have no place in my profession.

This is a very touchy topic, one I have had conversation with Rabbi Levin about. I am simply letting you know we do all we can as a public school within our ability.

Good morning, :-

As discussed when we met, the distribution of the reading and information about sharing such with students in preparation for next week's assembly has taken place.

Thank you.

Hello Mara,

When we met last Wednesday we discussed the need for the 10th grade ELA teachers to have a discussion with their classes in preparation for the upcoming assembly with a Holocaust Survivor on February 5. We also agreed that the class discussion should take place as close to the assembly as possible so it will be fresh in the students' minds.

In addition, Maureen provided you with a handout for you to copy and distribute to the teachers that outlines Background Information on the Warsaw Ghetto Uprising to direct and aid with the class discussion since this is the main topic the survivor will be addressing.

I would appreciate if you would let me know how and when you are directing the teachers to have this class discussion. Will they be provided with the handouts and told to discuss them with their classes prior to the assembly?

told me that last Thursday his teacher told them they will be attending an assembly with a Holocaust survivor. Because it was more than a week away, and it did not include a discussion of the handout, I am thinking the teacher just mentioned it on his own, and you did not have a conversation with the teachers yet.

Dear Mr. Hepburn,

Thank you again for confirming the date of the All Grade Holocaust Assembly . As we discussed on the phone, the 10th grade assembly will be on ; and the 9th, 11th and 12th grades will have individual assemblies on

Will you please provide us with the exact times for the 9th grade, 11th grade and 12th grade assemblies, as each individual grade assembly will involve a different program and different guest speakers, so the times for each assembly will be integral in moving forward to arrange and coordinate this program. I am very excited to start planning this program with Maureen and want to avoid any more mix-ups or misunderstandings, so having these time slots set now will hopefully secure that.

Looking forward to hearing back from you with the times for the 9th grade, 11th grade and 12th grade assemblies on as soon as possible so we can start planning.

Thank you again for implementing this important and meaningful program!

Sincerely,

Good, thank you, I look forward to hearing back from you next week regarding the time slots for each assembly.

For your reference, and as discussed in the May 6 meeting and outlined in the meeting notes, the format for the assemblies that I developed with Maureen are meant to build on each other progressively so each year the students will learn about another aspect of the Holocaust and by the end of HS they will have been exposed to an overview of the Holocaust and its lessons. The format is as follows:

: "The Final Solution", Hitler's rise to power and how he made millions follow him, political cartoons, scapegoating, propaganda...

: Holocaust Survivors, those who bear witness

: International response to the Holocaust, collaboration and complicity, The St. Louis a ship filled with thousands of Jews trying to escape the Nazis, only to be turned away and forced to return to Europe for most to perish in the Holocaust

: Where do we go from here... Our role in the world and lessons learned from the Holocaust and how we can use them to be positive influences in the world, what lessons have not been learned from the Holocaust?

Thank you again for organizing and facilitating this program!
